Basic info

Also enable adding
profile picture?

What exactly are tags?
When a user is assigned as a
team leader, should the 'team
leader' tag be added
automatically?

- ☐ User 8
- ☐ User 9

Team lead: Users

A multiselect element for members (users). Support for search (by name & username perhaps)

How many leaders does a team have?

Should all users be shown in the team lead dropdown, or should it be based on criteria such as user tag or workplace (for example, should an HR employee be excluded from being a team lead)?

Content

A nice display.
Maybe organization chart?

Maybe add a sign, for
example, an exclamation
mark, next to users whom
you haven't evaluated yet.

It would be nice to also be
able to redirect to user
details when clicking on a
node for example
